

## Care of Next Infant (CONI) Process Map

GP/Midwife/HV/Health Professional identify parent who has experienced a previous loss of a child as a result of a sudden unexplained infant death and offer referral to the CONI scheme

If CONI scheme is accepted and parents' consent then the Health Professional completes the **CONI referral form** which is sent to the 0-19 Advice line in the appropriate area (East - [fchc.hvadvicelineeast@nhs.net](mailto:fchc.hvadvicelineeast@nhs.net) and West - [csh.advicelinewest@nhs.net](mailto:csh.advicelinewest@nhs.net) )

Advice Line send to the Admin Hub who create a referral on EMIS – HV CONI (for inbound referrals)

Admin Hub send details of referral to CONI inbox - [csh.conitriagesurrey@nhs.net](mailto:csh.conitriagesurrey@nhs.net) and cc HV Co-ordinator and HV Duty email inbox from correct locality. **See staff contact list for details of local HV Co-ordinators.**

Local DUTY team liaise with HV Co-ordinator who creates CONI referral for that team, for example HV Elmbridge Antenatal CONI

HV Co-ordinator then refers to the CONI Contact process map to commence CONI scheme
